Dear friend

Referring to Wm. Wells's letter to you per post, I now enclose a list of the articles in the Box promised to Ja. Collins - and herewith sent by the Glasgow Female A. S. S. to your Society. - the prices affixed to the articles are such as we would expect them pretty readily to sell at with you, but we leave it entirely to the judgment of your committee to revise & alter them, either advancing or lowering them, as your knowledge of their suitableness to the taste of your buyers may point out - we will be glad when the Bazaar is over, you will have the goodness to note to us the prices obtained, as proceeds of our Box, also the articles which are most in request, that against next year, our contributions may be directed to the production of such - and thus made as effective as

57

possible;—we contribute our mite with great pleasure & hope it may aid the good cause in which you are engaged—in which we truely sympathise, and to which we wish speedy success.

I am dear Friend yours
very sincerely, Catharine Paton
